Farming in the Canadian North-West

Even away as far west as Fort
Qu'Appelle the show of live stock
was to me a matter of surprise, not
only as to quantity, but also as to
quality. Many animals were on
exhibition in fine condition which
had been given no grain in fitting
them, a fact which speaks eloquently
as to the quality of the native
grasses. The brave men who con-
ducted that exhibition nearly 20
miles away from a railway station
deserve every encouragement in
the good service which they are
rendering, and if the legislature at
its next session bears in mind that
they had to contend with a tornado
(not common in that country) while
in the midst of their fair, and helps
them out with their finances, if
need be, it would be doing a most
praiseworthy thing. No three
counties in Minnesota could alone
get up such a live stock exhibition
as was made by three counties of
Assiniboia at Fort Qu'Appelle.

Then the two experimental farms,
at Brandon and Indian Head, who
can estimate what they are doing
for the country? The demonstra-
tion work in handling soils and pro-
ducing crops is simply immense,
and, better still, if that were possi-
ble, is the work in growing wind-
breaks and shelter belts of trees. I
was going to say we have no demon-
strative work that will equal it
on this side of the line, but I will
not just at present, for comparisons
are often hazardous, and sometimes
to some they are positively odious.

How comes it that these stations
are away in the van? How is it
in the work that they are doing that
brings them in touch with the aver-
age farmer they shine out among
the stations as beacons of light? It
will not do to say that it is because
they are under the Dominion govern-
ment, for governments change.
It will not do to say that the for-
tunate natural conditions have
made them, for especially at Indian
Head, the natural conditions are not
easy, if the writer knows anything
about natural conditions. Is it not
because two men manage those
stations who possess exceptional
qualifications for such work, and
that they are in touch with a Direc-
tor at Ottawa, to whom Canada
owes a monument. Those man-
agers, S. A. Redford and Angus Mac-
Kay, I wonder if the farmers in the
provinces in which they labor have
any adequate conception of the value
of the work that they are doing for
them? It would not be possible to
say which is doing his work best,
both are doing it so well. No
money value can be put upon this
work it is so far-reaching—that is,
it will be thus far-reaching—the
farmers profit by it. Manitoba and
Assiniboia, take care of those men.
Show them that you appreciate
their work while they are living by
coming in touch with it. This is
far better than building monuments
for them when they are dead.
—Prof. Shaw, of Minnesota, Experi-
mental Station, in North-West Farm-
er.

The Value of Good Eyesight

In many instances is not appreciated until the vision is impaired,
whereas the sight may be preserved indefinitely by having the eyes
carefully and accurately fitted with glasses which could be worn
occasionally in cases where the eyes are overworked and become
easily tired.

Penny Wise and Pound Foolish

Is a poor policy to pursue in the treatment of the eyes. No
amount of money can repay one for the loss of eyesight. When
the system becomes run down and unhealthy, often the eyes are
the first organs to give way under the strain.

Do not buy cheap pedlar's glasses without first having your
eyes tested. Glasses that do not suit your eyes do more harm than
any amount of overwork. Have each eye tested by an experienced
optician, and then the glasses you get will be suitable for your case.

A Perfect Fit

Is necessary to ensure clear sight and comfort. I am agent for the
famous B. Laurence glasses, and have the biggest stock of lenses in
the Territories. Can put lenses in any style of frame—to suit
any shape of face. I guarantee a perfect fit or no charge. Call
and have your eyes tested free of charge at Hunter's Drug Store.

Servant Wanted.

WANTED at once a good respectable

MRS. CARTER,
Qu'Appelle Station, Assn.

By Laura Jean Libbey.

"What is she doing there?" he asked himself; "could she suspect?"—the cold perspiration stood out in beads upon Frank Hawthorne's forehead. If any one should by chance examine and take possession of those papers concerning Theo, which he knew that the iron-bound oak chest contained, the great scheme which he had concocted would be laid in ruins. He almost held his breath when a moment later Violet Kensington crossed the moonlit path, gliding into the grounds with the identical black ebony box in her jewelled hands.

His intense rage knew no limits.

HEROES OF THE EMPIRE

FIVE TROOPERS OF THE STRATHCONA HORSE

Were Ordered to Surrender—They Refused and Were Biddled With Bullets.

London, Oct. 11.—A dispatch from Lydenberg says: "A Boer prisoner tells the story of the way in which a patrol of five troopers of Strathcona's Horse, under Sergeant Brotherton, met death. It appears that they were suddenly surrounded by a strong force of Boers. The Canadians indignantly refused to surrender and a murderous fire was exchanged at short range, until every man in the party was riddled with bullets, but not before each Canadian had accounted for three Boers."

"Sir Rodvers Buller, while passing through Machadodorp and bidding farewell to the troops, said he should be greatly pleased to tell Lord Strathcona of the magnificent work of his troopers."

Ottawa, Oct. 11.—The transport Idaho which is conveying the Canadian soldiers from South Africa to Halifax is a steel vessel 400 feet in length and has a net tonnage of 3,375. It makes 13 knots an hour and is 905 horse power. The Idaho passed St. Helena yesterday.

Lydenberg, Oct. 11.—General Buller had farewell to his troops Oct. 6 and departed southward. There was a striking farewell demonstration. The troops gathered on both sides of the road for miles and cheered Buller vociferously.

London, Oct. 11.—Lieut.-Col. Gordon, of Montreal, who was attached to the second Canadian contingent for special duties, has been gazetted assistant staff officer to the prisoner of war and as deputy assistant adjutant general.

Cape Town, Oct. 11.—305, Carter, of the Canadian Mounted Rifles, who was severely wounded and a prisoner of war since, escaped to Wondfontein on October 7. Gerald St. Louis (Carter) was of the Manitoba Dragoons.

Bloemfontein, Oct. 11.—The British forces reoccupied Smithfield, Rouxville, Wepener and De Wetsdorp, Orange River colony.

KING HUMBERT'S DEATH.

New York, Oct. 11.—One of the men examined by Supreme Court Commissioner Trimble in the investigation into the alleged anarchist plots in Paterson, N. J., which resulted, it is charged, in King Humbert's death, was B. Mazotti, who is reported to be usually the secretary of the anarchist meetings in that city. When questioned as to his testimony he said: "I told the commissioner that there were several anarchist organizations in Paterson, but they were divided on the question of killing the heads of governments, although as a rule they do not question the killing of kings as a matter of policy. The purpose of our organization is to advocate the abolition of all government restriction and the substitution of individual liberty."

ADVANCE OFFERED.

Hazleton, Pa., Oct. 11.—The A. S. Vanwick estate, operating the Colrain and Milnesville collieries, and Calvin, Pardee & Co., owners of the Lattimer mines, posted notices today offering the ten per cent advance in wages to its mine workers.

The notices are similar to those posted by the other local companies. There are only about four other individual operators in this region that have not yet offered the increase, among them being G. B. Markle & Co. These mines, however, are expected to make the wage concession within the next few days. There was no march this morning, but the usual crowds gathered in the vicinity of the collieries that are still working for the purpose of getting the men to refrain from going to work.

MYSTERY OF THE MINE.

Hazleton, Pa., Oct. 11.—The confession of a murderer in the west promises to clear up the mystery of a horrible murder committed in this country 27 years ago. The confession, which is that of one I. W. Keller, who was recently executed in Oklahoma, is to the effect that he had murdered seven persons, among them being a man at Maudsloe, this country.

The news has produced the greatest excitement in the quiet hamlet, for the twofold reason that a murder was committed there which has never been satisfactorily cleared up, and that such a man as I. W. Keller actually lived in the vicinity at the time.

The murder near Maudsloe was well known as the Mystery of the Mine. In 1873 the body of Bernard West-Boswell was discovered in an abandoned mine. The evidences of murder were plain, robbery being the object. West-Boswell, who had been a lieutenant in the Prussian army, was studying for the priesthood at the time.

Flagler, and other Standard Oil men, for alleged violation of the anti-trust law of Texas. Gov. Roosevelt said he could not act on the requisition as long as he was out of New York state, as he is technically not governor. He said he would look into the cases when he returned to New York.

NEWS IN BRIEF.

Telegrams and Cables Condensed.

St. Petersburg, Oct. 10.—Five thousand pilgrims assembled at St. Nik under monastery, in the Pskov district, for a religious festival. During the night one of the upper floors collapsed and many of those sleeping there fell upon those below. A panic was caused by a false alarm of fire and four men and sixty-six women were crushed to death, many others being seriously injured.

Pekin, Oct. 10.—Gen. Yamaguchi will retain 10,000 Japanese troops, 2,000 of them at Pekin and the others at Taku and along the line of communications. Eight thousand Germans will winter in Pekin and 1,500 Russians. The number of British troops who will be retained has not yet been decided.

East St. Louis, Oct. 10.—Governor Roosevelt tonight concluded his campaign tour of Illinois, speaking in this city to the largest audience assembled here since the McKinley-Brann campaign four years ago. Gov. Roosevelt betrayed no token of weariness, notwithstanding he had made speeches in many towns on route.

Chicago, Oct. 10.—Eight persons were injured last night, one seriously, by a collision between a Calumet electric car and a south bound Lake Shore and Michigan Southern train. The conductor says the accident was due to the fact that the motorman, who was a new man, did not bring the car to a stop before starting across the tracks. Irwin Dowse, the motorman, was internally injured by being crushed under the car.

Rodney, Ont., Oct. 10.—B. Osterhout, principal of Rodney public school, committed suicide this morning by cutting his throat with a razor. Osterhout had been sick a few days and on Saturday went to the residence of his brother-in-law, Peter McVicar, near Wardsville, where he committed the deed.

Liverpool, Oct. 10.—James Fitzharris, the Phoenix Park murderer, known as "Skin the Goat" was re-arrested here last evening for failing to report himself under the terms of his prisoner release license. It is probable that he will only be temporarily detained.

Ottawa, Oct. 10.—The trade of Canada for the two months of the fiscal year ending Aug. 31 last was over \$7,000,000 greater than for the same time last year, when it was the greatest on record. The imports increased this year by over \$1,000,000 and the exports by over \$1,000,000.

London, Oct. 10.—Election returns now show a net financial gain of five seats, 327 supporters and 165 opponents of the ministry have been elected. Rumors of government reconstruction are rife just now, and all members of the cabinet have as a result, courted their resignations in Lord Salisbury's hands in order to facilitate any reconstruction that may be in contemplation.

New York, Oct. 10.—The schedules of Samuel Gumbert and Edward Ashenall, composing the firm of Samuel Gumbert & Co., manufacturers of clothing, filed in the United States district court, show liabilities of \$101,132 and assets of \$63,419 nominal value and \$29,500 actual value.

Winnipeg, Oct. 10.—The last Manitoba Gazette contains an announcement of application for incorporation by the Molite Cream Separator company, with a capital stock of \$100,000. The head office of the company will be in Winnipeg.

Ottawa, Oct. 10.—The new silver medal is to be issued to all ranks of the British service actively employed during the operations in South Africa, and will be attached to a ribbon with an orange centre, having narrow navy blue stripes on either side slightly wider, and deep orange stripes of red.

Pittsburg, Pa., Oct. 10.—The American Tintplate company will have in operation this week twenty of its tintplate plants out of thirty-five, giving employment to at least 35,000 workmen. The tintplate company employs in all over 50,000 workmen and within a few weeks it is said every plant in the country will be working. The plants have been idle since the expiration of the sale in June last.

Vancouver, Oct. 10.—The R. M. S. Empress of India, sailed for Japan and China yesterday, with a full passenger list, including Sir John Murray, K. C. B., the noted naturalist. Her cargo included a large consignment of supplies for the British troops in China, including clothing and camp stores manufactured by a British Columbia firm.

WILFUL MURDER.

Nings, Man., Oct. 10.—The inquest on the bodies of Charles Daw and Jacob Smith, found in a well on Davis farm on Sunday, opened at Whitewater this afternoon before Coroner Schaffner. About twenty witnesses were examined on account of the ingenuity displayed by the criminal in the commission of his atrocious deed.

Following is the verdict rendered by the jury: "We the jurors agree to the following verdict: That Charles J. Daw came to his death by wounds inflicted in the head by a revolver in the hand of Walter Gordon, and we all agree that Jacob Smith also came to his death by wounds inflicted in the neck by gunshot by the hand of Walter Gordon."

FREIGHT AND PASSENGER RATES.

From time to time the western press has drawn attention to the excessive freight and passenger rates in the west. Interested parties would attempt to reply by saying they were no higher than the rates on western lines over the border. But this, on the face of it, was no answer at all. Some months ago the C. P. R. company, in answer to urgent representations, decided to reduce the passenger rates in Manitoba and Assiniboia, the former to three cents per mile and the latter to about 54 cents. This concession was much appreciated by the travelling public but it did not go far enough. It was still impossible to get reduced rates return tickets between local points, and western people had still to pay from \$10 to \$15 more to go to eastern Canada than they of the east had to pay to come west. This latter arrangement particularly was manifestly unjust and at a recent meeting of the Winnipeg Board of Trade it was decided to approach President Shaughnessy on the matter. This was accordingly done and we are now to have a readjustment of passenger rates eastward. We trust reduced local return fares will come also.

One of the greatest burdens western business men have to bear is the freight rates on almost all classes of goods. The proportion per mile may not be excessive, but when it is remembered that our markets are from twelve hundred to two thousand miles away it will readily be seen that these charges soon amount to a respectable sum. For instance, a barrel of apples may in a good year be purchased in Ontario for \$1. To get it to Qu'Appelle the freight charges would be about three times the cost of the fruit. We believe it will pay the C. P. R. to make substantial reductions.

The Canadian Manufacturers' Association in Toronto is agitating against the freight rates in the east and if they are burdensome there where the haulage is short what must they be to western people? The company is justified in making fair profits, but we believe they would make more than they do now by lowering the freight rates.

Reverting to the matter of freight western Canada is the natural market for the products of the east.

of their surplus crop, and it is a matter of surprise that they do not give more attention to proper packing and securing cheaper carriage. We trust the Boards of Trade and others interested will soon take some action in the matter and lay the subject before the C. P. R. officials. The manner in which the company has met representations so far leads us to believe that they would meet the wishes of the people in this latter regard if the question were brought before them.

Correspondence.

Mr. Lake and the Elevator Combine.

To the Editor of THE PROGRESS.

DEAR SIR:—There is an organization in Grenfell comprising a mill and an elevator known as the Grenfell Milling Company. It is well understood and accepted without question that Mr. R. S. Lake is a member and shareholder of said Milling Co. I am in possession of the most reliable information that the Grenfell Milling Co. is a member of Mr. Connell's Northwest Elevator Association (better known as the combine of combines). Mr. Connell's objectionable elevator connections were divulged to the public by himself, while giving evidence under oath before the Elevator Commission, or otherwise it might have remained a secret to this day. Mr. Lake's relationship towards this Milling Co. and also towards the Elevator Association can only be discovered in some such similar manner. We look, therefore, to Mr. Lake himself for the information that we as farmers and electors have a perfect right, at this particular time, to be in possession of. Is Mr. Lake or is he not a member, shareholder, partner or in any way financially interested in the Grenfell Milling Co., and is said Milling Company or is it not a member of the Northwest Elevator Association? On behalf of the agricultural interests (which really include all) in the constituency, we hereby demand that Mr. Lake, as an aspirant for public honors, at once reply to these questions, over his own signature and affidavit. A refusal on his part will be tantamount to an admission that his elevator connections, like Mr. Connell's, are indefensible.

Yours respectfully,

W. R. MOTHERWELL.

Betrayal by the Government.

To the Editor of THE PROGRESS.

In the last issue of THE PROGRESS appears an editorial dealing with what is termed some good acts of the Liberal government. While not disposed by any means to take exception to all that the article gives expression to yet I could not help feeling upon reading it that in your overzeal to make out a good case for the government you have detracted much from the merit of the editorial. Particularly is this the case in your reference to the preferential tariff, the sending of soldiers to South Africa, the Crow's Nest Pass deal and the immigration policy. It is not my intention, however, to enter upon any discussion of these questions here. I simply ask you to be good enough to allow me to place before your readers two short extracts from a remarkable address issued to the Liberals of Canada by H. H. Cook, ex-M. P., a veteran worker in the ranks of the Liberal party. I may say that Mr. Cook was elected in 1882 and again in 1887 as member of the House of Commons for the riding of East Simcoe where I was born and where I lived for twenty-three years. Mr. Cook also contested the same constituency, though unsuccessfully, against the present member W. H. Bennett in 1896. When veteran Liberals like H. H. Cook, R. L. Richardson and W. G. Pottenger lose faith in their party leaders and come out flat-footed against the government is it not high time that their political allies throughout the country were concerning themselves about their heritage?

Mr. Cook says:

"It is with a full sense of my personal responsibility and with a

deep consciousness of the gravity of the charge I make, that I state it as my deliberately formed opinion that the present leaders of the Liberal party, Laurier and his colleagues in the cabinet (for at least some of them as were members of the Liberal party when it was in opposition), have betrayed the principles of our party, been false to their pledges and broken faith with the people of Canada, and have disgraced the positions they occupy. I can only escape from sharing their guilt by publicly denouncing and repudiating them."

Not one principle for which the party stood under the leadership of Brown, Mackenzie and Blake, is now guiding the leaders of the party."

And of the change of attitude of the Liberal leaders on the question of preferential trade he says:

"Laurier promised just before the last general elections to try and secure mutual preferential trade between Canada and Britain and to send Commissioners to England to arrange a basis for preferential trade. How has this promise been kept? Has any honest effort been made to redeem it? One member of the ministry, speaking for his colleagues, has declared the very idea that such a preference could be obtained by us as 'arrant humbug.'"

"A preferential advantage has been given the manufacturers of Britain in our markets whether wisely or not I shall not argue, but this one-sided arrangement is not what Sir Wilfrid promised to endeavor to obtain, not what he pledged himself to 'send commissioners to London' to arrange for."

There has been no change in the attitude of the Conservative party and yet our leaders have led us into the position of positive hostility to what both parties favored prior to the elections and which our opponents still favor. They still stand for preferential treatment for our farmers in the British markets. Our leaders declare such a proposal to be 'arrant humbug.' What answer shall we make if we be asked concerning these commissioners that were to be sent to London?

"The overthrow and punishment of leaders who have betrayed and disgraced us is the important present duty to which we must put our hands and do with all our might."

Thanking you, Mr. Editor, for your valuable space,

I am,

Yours, etc.,

ELECTOR.

Farmers' Markets.

To the Editor of THE PROGRESS.

DEAR SIR:—By your permission I will wind up the debate on the above subject.

I think that in the paper read by me in the farmers' meeting it was plainly shown that the farmers' markets were not what they ought to be and that the fault was not all on one side. Because of distrust between buyer and seller, and between farmers and merchants there was not the amount of business done in our local towns that there should be, and that a large amount of money goes east because farmers think they get better value for their money. After noting the different markets and wherein I thought they failed or could be improved, I came to the close of my paper with the hope that it would raise a discussion, for I think still that a good discussion on such subjects will do good. Well, sir, a nameless person has in two letters made a small attempt at the job, but if his name has no more weight than his arguments I don't wonder at him not using it.

I wonder how Mr. "Townsmen" knows I am very generous in my opinion of the Liberal government. I was not dealing in politics when I read my paper at the farmers' meeting and if I had so far forgot myself I am sure that our chairman would have stopped me seeing that we were farmers of all classes met to discuss farm matters and not politics.

"Townsmen" says: "An occasional farmer bringing in an occasional load cannot expect to sell readily. Who is to know he is in town un-

less he goes from door to door?" "Townsmen" must know that this is about the only way that the farmer can sell anything in town with the exception of wheat, provided he has any quantity to sell, and the reason is because so many of the townspeople are producing their own.

Mr. "Townsmen's" words re cash sales are all Tommy rot, so will let them rot without any stirring.

I think, sir, that Mr. "Townsmen's" insinuation that myself and other farmers would not care about the sanitary state of the town if it did not affect our pockets is very base indeed. Is Mr. "Townsmen" not aware that many of us send our children to the town school and that we pay taxes to run it, and that many of the farmers from long distances get many meals in the town in the course of a year, and, in fact, the life of the town and country is so interwoven that what affects the town in this matter is very apt to affect the country also?

Then, sir, Mr. "Townsmen" missed the point of my comparison between Qu'Appelle and an old country town of forty thousand people. My argument was that if a town of that size could be supplied with milk, eggs, etc., it would be a very small thing for the farmers around Qu'Appelle to do the same thing. Then, sir, he goes on and says that the market is limited and the supply is limited, but he ignores the fact of why it is so.

Now, sir, there is one thing I must give Mr. "Townsmen" credit for, and that is for finding a new kind of man. I mean the farmer

who preferred to send his money away and pay more for his goods than he could get them for at Qu'Appelle. I wonder if this is the missing link of the Charles Darwin theory. If so I am sure that the people at the London Zoo would give a stiff price for it.

No, sir, it is not strange that Canada is behind the Old Country in some things, for though she has had the advantage of having the history of the greatest empire in the world unfolded before her she has been slow to make the best of it; and Mr. "Townsmen" should remember that a good deal of her best blood is from the different parts of that same old empire. British blood, British money, and protection is the cause of Canada standing where she does to-day. And let me say that Canada's sons have nobly paid back some of the interest in the South African war.

Mr. "Townsmen" may be willing to pay cash, for he may have nothing to sell, but how about the merchants of the town, will they agree to pay cash to farmers for butter and eggs, etc.?

Now, sir, I think I have about finished this discussion and will only repeat that I will be very well satisfied if I have led farmers, merchants and other townsmen to think and talk about the different parts they should play in the building up of the town and country.

Thanking you, sir, once more, I am

Yours truly,

THOSE WHO ARE QUALIFIED TO VOTE.

The requirements for permission to vote in the North-West Territories in the coming general elections are set forth in Chap. 7 of the "Act respecting the representation" of the North-West Territories in the parliament of Canada," are stated thus:

"Every male person shall be qualified to vote at the election of a member under this act who, not being an Indian, is a British subject of the full age of 21 years, and who has resided in the North-West Territories for at least twelve months, and in the electoral district for at least three months immediately preceding the issue of the writ of election."

NOTES.

Some friction having occurred among the Conservatives of East York, Ontario, Mr. W. F. McLean has refused to run. It is to be hoped he may be persuaded to change his mind as he has shown himself an able and independent Conservative. Independent men are all too few in the House of Commons.

Some of our readers blame us for not giving more space to the East Asiatic political contest. Mr. Douglas' actions, promises and claims have already received due notice. Mr. Lake's position has also been published, but when he comes before this district and states his policy we shall not hesitate to discuss it.

Our columns are always open for discussion of public questions. Politics is the main subject now and we invite expressions of opinion on political subjects. Brevity and avoidance of abuse, however, will be the conditions on which publication may be secured. Correspondence must always have the writer's name, not necessarily for publication.

The tariff question is practically a dead issue between the political parties in this campaign. The Conservatives and many Liberals agree that the present duties are protective. As to the preferential tariff, the Conservatives deny that they will interfere with it, though they would much prefer that Britain should respond by placing duty on foreign goods.

Lebrét.

From our own correspondent.

Mr. Goble, of Winnipeg, representing the Great West Life Insurance Company, and Mr. R. Williams, of the Fort, were at Lebrét on Thursday.

Mrs. J. Bell and Miss Munroe, of Balcarres, were at the Industrial School on Friday. Mr. T. McDonald has as usual a very fine crop of potatoes this season. Two tubers taken from the Root Appled the same as the famous "The Giant" and are shown below. The best flag one at all below.

Mr. Schuck attended the Scott police

meeting at Poplar Plains on Friday evening. Miss McLeod, of Poplar Plains, was the guest of Mrs. D. McDonald for a few days last week.

Thanksgiving Day will be observed as a holiday by the Public and Industrial schools. Mr. D. S. Williams and Mr. J. Gillespie passed through the village on Saturday on their way to the Fort.

Mr. D. Cameron was at Qu'Appelle Stn. on Friday.

Masters Harold and Arthur Seymour spent Saturday on a hunting expedition in Balcarres district.

Mr. Forest, of Lac Marguerite, was at Lebrét on Saturday.

Interest in the political contest continues to heighten as the elections approach. We feel safe in predicting a substantial majority for Mr. Lake in this district.

The fine weather has proved a veritable godsend to those farmers who had grain in stack. Stacking is practically completed and threshing is now in order.

His Grace, Archbishop Langevin, accompanied by Rev. Father Maguin, came down from Touchwood on Saturday. His Grace officiated at High Mass in the Church of the Sacred Heart on Sunday and preached in English and French.

In the last issue of THE PROGRESS the Springbrook correspondent essays to reply to the manufacturers and enable companies reasoning on the question of tariff duties on raw sugar and farm implements respectively, a reply, by the way, quite as weak and ineffectual as the rejoinder to our short article on the opening up of this country for settlement.

What we directed attention to was not the opposite effect of the duty in the two cases cited but the evident dishonesty of Mr. Sifton's reasoning. The effect of the duty on the raw material used in the manufacture of binders and mowers has not been "to enable" them to be sold at a lower rate, but on the contrary to increase the profits of the manufacturers and enable companies like the Massey-Harris to fasten on the hard earnings of the farmers of Canada. The Massey-Harris Co. charges us \$150 for a binder, but the same plant and equipment sell for the same kind of binder in England for \$75. As things stand at present in this country, there practically exists a combine of the different manufacturers of agricultural implements just as surely as those of the manufacturers of refined sugar, and it is equally dishonest for Mr. Sifton or any one else to claim that a reduction in the duty on the raw material led to a reduction in the price of the article itself. The two positions taken by Mr. Sifton are utterly inconsistent, the Springbrook correspondent went to the contrary notwithstanding.

We may say that here that we were one of those who in 1895 favored giving the Liberal party a chance. We were foolish enough to do this then. We would, we then promised to cut down expenditure and reduce taxation, to preserve independence of parliament and give us a power of administration, to place farm implements on the free list and furnish us with cheaper coal, but we are heartily disgusted with Siftonism and Eastern today. It is to avoid being placed in a "humiliating" position that we are so strenuously opposing the same party in the year 1900.

Territorial and General News.

The home of Mr. John Mitchell is a veritable hospital at the present time. Mr. Mitchell, his six boys and Mrs. Jas. Downey are all going through a siege of typhoid fever. Mrs. Mitchell has kept quite well thus far although very much fatigued. Nurse Cameron, of Moose Jaw, is in charge of the patients.

and their many friends will be glad to know that there is every expectation of the recovery of all.—Greenfell Sun.

Mr. John H. Wilson has severed his connection with the Times staff and left on Thursday morning to visit his home in Qu'Appelle, after which he will take a trip to the coast for the benefit of his health. During the year he resided in Moose Jaw Jack made many warm friends who deeply regret his departure. He took an active part in church work, being a member of the Presbyterian choir and Secretary of the Y. P. S. C. E., which gave him a kind farewell at the regular Monday evening meeting.—Moose Jaw Times.

Messrs. Smith and Miller, the temperance evangelists, struck a snag that kicked back at them, when they addressed an audience at Pincher Creek last week. After abusing the town generally, the people and the N. W. M. P., and stating that he was a temperance man under the auspices of the W. C. T. U. and R. T. of T. he (Mr. Smith) was interrupted by Mr. C. Kettles, who said he was an R. T. of T. but did not know that Smith was under the auspices of the lodge, and he thought that after such an exhibition Mr. Smith had better be left to address the bare walls. Sergt. Bartles then rose and told Mr. Smith he had made serious mis-statements about the police and that unless ample apologies were tendered the matter would not be allowed to drop. Mr. Smith was dumfounded at this, and the audience filed out, receiving their money at the door.—Lethbridge News.

Catarrh Forced to Capitulate.

Unable to Withstand the Siege of Dr. Agnew's Catarrh Powder--No One Can Truthfully Say That Their Case is Incurable Until They Have Tried This Wonderful Specific---Quick as Well as Certain in Its Cure.

It Clears the System of that Insipid Cold Before The Seeds of Consumption Have Taken Root--No Sanitarium Needed if you Use This Remedy.

Catarrhal Deafness of Twelve Years' Standing Has Been Cured by This Remarkable Medicine Every Catarrhal Sufferer Should Know of it—Price 50 Cts.

Catarrh may take different shapes. The cold in the head is catarrh, at least in a moderate degree. A cold in the head, however, is not to be trifled with. It is the starting point with more serious diseases. The results of catarrh of the throat and in the nasal organs are not only very unpleasant but a most sure road to more serious consequences. The remedy of Dr. Agnew's Catarrh Powder is that it quickly

ly helps these organs and enables one to throw off the disease before it takes a more chronic condition.

You have tried to rid yourself of that foul breath and have wondered what gave rise to it. More than likely it is an outcome of catarrh. The trouble was first in the nasal organs and then in the throat, and its foulness has been thrown off through the breath.

The hearing is very often affected by catarrh, and if the disease is neglected total deafness often ensues. Dr. Agnew's Catarrh Powder has cured catarrhal deafness in its worst forms. We have not here disposed of a single remedy, for the reason is large, but the case of Dr. Agnew's Catarrh Powder is well known to all who have been dealt for twelve years through catarrh,

should be made known for the benefit of others suffering in a like manner. His experience with this remedy is set forth in the following words: "I am to-day heart as good as cured."

No many suffer from catarrhal deafness that heavy dull ache over the eyebrows. The disease is there and must be driven out of relief is to come. No remedy will do this as well Dr. Agnew's Catarrh Powder.

It is simple to use—pleasant—and no bad after effects. There ought not to be a single sufferer from catarrh with this remedy within the reach of everyone. Price 50 cts.

Dr. Agnew's Cure for the Heart gives the best kind of relief. It cures most serious cases at once, and this is but a hint of the power of this remedy.

Dr. Agnew's Catarrh Powder will cure any form of cold, and every sufferer from this painful disease long for a sure remedy.

Dr. Agnew's Liver Pills are wanted in the spring season. Little but an excellent remedy for the liver.

FREDERICK IS DYING.

CONDITION OF EMPRESS-DOWAGER OF GERMANY

Is Causing Alarm—It May Seriously Affect the Health of Queen Victoria.

London, Oct. 14.—The Berlin correspondent of the Daily Telegraph says: "I learn that the condition of Empress Frederick is precarious. Emperor William has cancelled all his engagements for the present."

Kronberg, Oct. 14.—The court marshal of Empress Dowager Frederick announces that her majesty's illness has reached the acute stage during the last few days, but that in the opinion of her medical attendants her condition may shortly ameliorate. Prof. Renvers, of Berlin, has been summoned to attend her.

Berlin, Oct. 14.—Considerable alarm is felt at the Berlin embassy over the condition of Dowager Empress Frederick. A fortnight ago it was not expected that she would survive the winter. Prof. Renvers, who was summoned suddenly to Kronberg, is a specialist in kidney disease, but it is understood that the heart is also affected. Princess Christian of Schleswig-Holstein was hurriedly summoned to the bedside today.

New York, Oct. 14.—The alarming news with regard to the condition of the Empress Frederick is certain to have a serious effect on the Queen. Her majesty is still sorrowing for the loss of her second son, the Duke of Coburg, and grave consequences might arise should the illness of her eldest daughter have a fatal termination.

FAST WAR VESSEL.

Santa Barbara, Cal., Oct. 14.—The Wisconsin has just completed the most successful trial trip ever made by a battleship in this country, and she is pronounced the finest vessel ever turned out by the Union Iron works which built the Oregon. The big vessel gained a maximum speed of 18.54 knots per hour, and maintained an average of 17.25 knots per hour. The only other battleship approaching this speed is the Alabama, which averaged 17.13 knots and attained a maximum speed of 18.03 knots. Without stopping the engines, the Wisconsin ran and put her through the required evolutions.

GERMAN SOLDIERS IN CHINA.

The German Emperor has taken pains that his soldiers sent to China shall be comfortable and efficient so far as uniforms and equipment are concerned. Each foot soldier carries a weight of about 60 pounds. His cowskin knapsack weighs 12 pounds. His tent and trenching tools, aluminum haversack and canteen weigh about 12 pounds more. Add to this his gun and equipment, belt, pouches, etc., and the total weight is 80 pounds.

When this comes to be supplemented by rations and various articles

GERMAN SOLDIER EQUIPPED FOR SERVICE IN CHINA.

which have to be carried during a march, the total reaches, as has already been said, about 80 pounds. After the thorough training which the German infantrymen receive, a regiment is able at a pace of four miles an hour to cover 20 miles without stragglers or "trails," a feat which will seem incredible to most American soldiers and men.

This weight is carried by the German soldier for China alone, though the conditions of Chinese service vary considerably from those of European warfare. The pikehaube, or helmet, with its spike top, which has been adopted by our own army for parade, has, as will be seen, been thrown aside for service in the east, and a rough hat, closely resembling our own rough rider hat, has been substituted. This, however, is provided with a chin strap, and regimental insignia are used to loop it.

The tunic or blouse, has been made shorter, and the voluminous folds of the German infantryman's blouse have been dispensed with.

Montreal, Oct. 14.—The steamer Ottoman has returned to port to discharge her cargo prior to going to Quebec to undergo repairs.

THE ROUND WORLD.

Its News in Condensed Paragraphs.

Roland, Man., Oct. 14.—A man named Lawrence slipped into the cylinder of a threshing mill here today, lacerating both feet so badly that he will require to be amputated. He was sent to the Morden hospital.

Cape Town, Oct. 14.—The South African League today passed a resolution in favor of a preferential tariff on British manufactures and adopted a resolution adverse to the Dutch language being abandoned, which was a suggestion to Mr. Cecil Rhodes.

Montreal, Oct. 14.—Harry Cawthorne, the well known insurance manager, 45 years of age, died suddenly tonight after taking a dose of poison, which he had swallowed with suicidal intent.

Madrid, Oct. 14.—The Hispano-American congress, a decree convoking which was signed by the queen regent April last, will open November 11 in the Grand hall of the National library. The number of delegates appointed already is over three thousand. A programme is being arranged.

Vancouver, Oct. 14.—E. P. Brenner, Dominion labor commissioner, returned from Nanaimo today and states that Premier Dunsinuir has not broken faith with his Scotch miners. The strike arose owing to a misunderstanding, and is being satisfactorily settled. Mr. Dunsinuir is anxious to entirely replace Asiatic labor in his coal mines.

Nanaimo, B. C., Oct. 14.—N. P. Duggan, operator on the E. & N. railway, Vancouver Island, was found guilty today of manslaughter, owing to criminal negligence in the performance of his duties, resulting in a fatal collision on the line a few weeks ago, whereby four men lost their lives, and he was sentenced to nine months' imprisonment.

Chicago, Oct. 14.—Twelve speculators were arrested in a raid made by the police this afternoon in the rear of the open board of trade building. The general charge made is "gambling in grain." Among the hearers was President Albertson, of the exchange. It is said that 80 more warrants have been issued in connection with the attempt to suppress the traffic in puts and calls.

St. John's, Nfld., Oct. 14.—The Allan liner, Corran, Capt. Stewart, from Glasgow, Sept. 20, and Liverpool, Oct. 1, for Halifax and Philadelphia, which arrived this evening, brought 187 artillerymen to reinforce the British garrisons at Halifax and Bermuda. The men were under command of Major Hill, who was on the staff of Col. Mahon during the advance to the relief of Mafeking.

Vancouver, Oct. 14.—W. J. McCutcheon, bookkeeper of the Hastings Saw Mill company, was today convicted of theft in the matter of misappropriating funds from the firm. The jury recommended him to mercy on the ground that the slack methods obtaining in the company's office were greatly responsible for the pilferings. He was sentenced to four years in the penitentiary. It is alleged his delinquencies amounted to \$8,000.

Berlin, Oct. 14.—Emperor William's abandonment of his proposed visit to Herr Krupp, coupled with the announcement that he will remain in Berlin with the Dowager Empress Frederick, his mother, is interpreted to indicate that there has been a turn for the worse in her condition.

St. Louis, Oct. 14.—W. V. Powell, who for seven years has been grand president of the Order of Railway Telegraphers, was expelled from the organization yesterday by a large majority of votes of the delegates present. The trial was strictly executive.

Ottawa, Oct. 14.—The announcement was made yesterday of the appointment of F. A. Miller as general passenger agent of the Chicago, Milwaukee & St. Paul railway, vice George Headford, resigned to engage in other business.

MINERS WORKERS TO MEET.

Scranton, Pa., Oct. 14.—The convention of anthracite miners now on strike throughout the hard coal fields in Pennsylvania will convene in this city this morning for the purpose of considering the 10 per cent increase of wages proffered for them by nearly all the mine operators in the region. What the outcome of the convention will be is a matter of speculation and the opinions expressed tonight by labor leaders are widely divergent. It is generally expected that in the absence of any instructions among the delegates the chances of a settlement by this convention are rather slight.

The convention, as near as the United Mine Workers' office can figure, will consist of 700 delegates. About half of this number are now here, most of them coming from the Schuylkill valley and the Hazelton region. The district headquarters are crowded all day. President Mitchell will probably preside and the secretaries will be elected by the delegates. The organization of the convention will be the only thing done at tomorrow's session.

AMBUSHED BY BOERS.

A SMALL PARTY OF ENGINEERS ARE ATTACKED.

Captain Stewart Killed, Two Officers Wounded—One Officer and Ten Privates Prisoners.

Pretoria, (Friday) October 12.—An engine with a truck conveying a party of engineers belonging to Paget's rifle brigade, while proceeding yesterday to Kaapmuiden, was ambushed by Boers. Captain Stewart, with forty men of the rifle brigade, went to their support. The casualties, unfortunately, were on our side. "Capt. Stewart and one private were killed. Capt. Paget, Lieut. Stubbs and five engineers were wounded, and Lieut. Sewell and ten privates of the rifle brigade were made prisoners."

De Laasie's mounted men and commandos after three days' fighting have driven De Wet north of the Vaal near Ventersdorp. De Wet has been assuring the burghers that Europe would stop the war on October 10. The Boers were thus buoyed with the hope that something would intervene to end the war in their favor. I trust they now realize how futile were their expectations.

London, Oct. 12.—The Pretoria correspondent of the Daily Mail sends the following dispatch: "From an English telegrapher who is in control of telegraphs for the Transvaal. 'I learn that there was a systematic tampering with all telegrams during the war in order to misrepresent the operations in favor of the Boers. He says that Mr. Kruger was constantly wiring to the commanders inquiries as to how many of the British had been killed and that Gen. Cronje, after the fight at Magersfontein, wired Mr. Kruger that he had counted many thousand British dead on the battle field.'"

"Early in the campaign Commandant-General Joubert appealed to Mr. Kruger to stop the Boers looting, but he refused to register. Later on he wired from Tolosno advising the president to sue for peace. Mr. Kruger replied: 'Have you lost all faith in God?'"

A FLOODED PROVINCE.

St. John, N.B., Oct. 12.—The entire province of New Brunswick is sentries a lake at 9 o'clock tonight. It has rained steadily for 118 hours, and ten inches of rain have fallen. No trains are moving on the C. P. R. between St. John and Vancouver, or on the branch lines of the road to St. Andrew, St. Stephen, Fredericton or Woodville, owing to the aggregation of washouts. The bridge at Hovion, on the main line, was swept away. Between St. John and Vancouver and the branch lines there are 25 washouts, some 150 feet long and 25 feet deep. The condition is the worst in years; thousands of dollars of damage is done. The Shore line and the Intercolonial also suffered some damage.

HALIFAX WILL WELCOME THEM.

Halifax, Oct. 12.—A public meeting of Halifax citizens was held today at the city hall, presided over by Mayor Hamilton, to make plans for the reception of the home coming Canadian regiment. Military officers, clergy and representative men generally were present. Various ideas were discussed, but the perfecting of arrangements was left in the hands of a committee. One thing was decided definitely, and that was, there should be a banquet.

A religious service, in which all denominations could unite, was proposed. It was agreed that before anything definite could be decided on the Ottawa authorities would have to give information as to how long the regiment would remain in this city before its members left for their destinations through Canada. The committee will solicit subscriptions to defray the cost of the demonstration, and when they hear from Ottawa they will make final arrangements.

LAURA CARROLL THE VICTIM.

Chicago, Oct. 12.—Laura Carroll is named as another victim of the insurance syndicate, said to be headed by Dr. A. C. McGee. The physician used her, it is said, as a subject on whom to take out policies in a game similar to that which was attempted with Marie Debenbach. Miss Carroll disappeared four or five months ago and none of the friends with whom she associated have seen her since. She is alleged to have been a patient and sweetheart of Dr. McGee's.

FOUR PEOPLE KILLED.

Holbrook, Neb., Oct. 12.—As Mrs. Herman Keilbeck and family were crossing the railroad in a farm wagon on last evening an engine ran into them, instantly killing Miss Lizzie Herman, Mrs. Keilbeck and her baby girl, and Mrs. Charles Bartensack, also fatally maiming the latter's 18 month old baby girl and seriously injuring her four year old boy. Mrs. Bartensack's husband was shot and killed near here Monday night by his brother-in-law.

Toronto, Oct. 12.—The coroner's jury last night refused to hold Edward Taverner responsible for the death of Isaiah Warner, who was fatally injured in a scuffle resulting from a heated political discussion. Taverner is still held on a charge of wounding.

Montreal, Oct. 12.—The Dominion line steamer Ottoman, which was damaged yesterday while leaving the port, is beached on an island near Varennes and now has twenty feet of water in her two forward holds. She will be unloaded and will go into dry dock at Quebec.

Ottawa, Oct. 12.—The announcement in recent dispatches to the effect that A and B companies are to remain in Africa is misleading. The A and B companies which remain in Africa are the original A and B companies of the first contingent, but companies formed out of the members of the contingent who have elected to remain until the war is completely over.

Toronto, Oct. 12.—Burglars were abroad last night in the west end of the city, attacking three houses successfully. At the fourth place they attracted the attention of the police, who heard the breaking of glass. A constable fired, but missed, and the burglar returned the shot, also without effect, and then got away.

New York, Oct. 12.—James J. Corbett intends to return to the ring as soon as he can arrange a battle with Jim Jeffries for the championship, it is said, and to prove that he is sincere he has cancelled his theatrical dates and will today post a forfeit of \$2,500 to bind the match.

Baltimore, Md., Oct. 12.—Harry Lyons, the colored featherweight of Chicago, disposed of Joe Cain, of Brooklyn, in the ninth round of their twenty round bout at Germania Manor hall tonight. A left jolt on the jaw sent Cain to the floor. He struggled to rise, but his seconds, to save a sure knockout, threw up the sponge.

Hazleton, Pa., Oct. 12.—The second fatal clash between the striking mine workers and the non-union men occurred early this morning at Onondaga colliery, in Schuylkill county, 12 miles from here, when a coal and iron policeman was shot and instantly killed and another policeman and a striker dangerously wounded. In addition about a dozen of the employees of the colliery were badly injured by being stoned by the strikers.

London, Oct. 12.—Lord George Hamilton, secretary of state for India, has received the following dispatch from the viceroy of India, Lord Curzon of Kedleston: "The general condition of the crops is excellent and except in a part of Bombay famine conditions are disappearing. The number on the relief has fallen to 2,760,000."

PERSONALITIES.

Congressman Littlefield of Maine always dresses in black. Even his ties are of that somber hue.

Congressman Bingham of Pennsylvania is said to own more suits of clothes than any other man in Washington.

Many congressmen find a knowledge of shorthand useful in debate, and Congressman Hill of Illinois is quite an expert stenographic reporter.

Governor Steunenberg of Idaho is physically the most impressive governor in this country. He is far over six feet tall and of herculean figure.

Senator Depew is of the opinion that had there been a successful national university at Washington 50 years ago there would never have been a civil war.

Representative Jefferson M. Levy of New York owns and maintains Monticello, the home of Thomas Jefferson, in keeping with its distinguished traditions.

Lewis Williams, a native of St. Paul, is said to be the tallest man in the world. He is 8 feet 11 inches tall, broad in proportion and weighs 364 pounds.

Congressman Charles B. Landis of Indiana is a close friend of James Montague Riley, the poet, who is always the congressman's guest when in Washington.

The costume of Senator Platt of New York is almost unvarying, except in very warm weather. He always wears a black Prince Albert coat and trousers of striped gray.

"All right, Augustus. I'll write your employer an anonymous letter and tell him we both think he is a mean old thing."

He Was Fresh.

"Have you any nice fresh eggs to-day?" asked the woman with business as usual.

"Madam," answered the man, who has just started in the grocery business, "permit me to remind you that nice eggs are necessarily fresh and fresh eggs are always nice. Moreover, if I have any, I have them today."

My Possession of Eggs Yesterday or Tomorrow does not in the slightest degree alter the situation. Therefore, time being precious to a business man, I will simply content myself with replying that I have nice eggs."

Too Tame For Him.

"No," said the St. Louis man, "I did not enjoy the street car ride you gave me. The scenery was all right and the motion good, but it was too tame."

"Tame?"

"Yes. At home I'm used to being blown up at every second street car ride."

"So'm I," says Jim.

"But how kin you?"

"Same as you."

"But think of your duty, Jim. It's the duty of a freeborn elector to do the better and the vain and let some body else hold office."

"Then you anny better and vote for me," says Jim.

"Look a-here, Jim," says I as I gits over my surprise at his promptness, "has it occurred to you that the fate of this nashun is tremblin' in the balance?"

"It has," says he.

"Do you want ruin and desolashun to overtake this fair land?"

"Not by a jugful."

"And do you want the Magna Charta of liberty used as a dish towel and the constitution of the United States chawed up by calves?"

"I don't."

A LIFE SAVED.—Mr. James Bryson, Cameron, states: "I was confined to my bed with inflammation of the lungs, and was given up by the physician. A neighbor advised me to try Dr. Thomas' Electric Oil, stating that his wife had used it for a throat trouble with the best results. Acting on his advice I procured the medicine, and, less than a half bottle cured me; I certainly believe it saved my life. It was with reluctance that I consented to a trial, as I was reduced to such a state that I doubted the power of any remedy to do me any good."

A Business Proposition.

THE STORY OF MRS. AGNES FORAN OF HALIFAX.

Following inflammation of the Lungs a Severe Cough, Set in and Her Doctor Said It was Hopeless. Dr. Williams' Pink Pills Have Restored Her

From the Recorder, Halifax, N.S.

Mrs. Agnes Foran, who resides at 21 Agricola street, Halifax, N.S., tells a wonderful story of her complete restoration to health, after a protracted and distressing period of extreme illness, and she attributes her present happy condition, under Providence, to the marvellous qualities of Dr. Williams' Pink Pills.

When Mrs. Foran was called upon by a representative of the Acadia Recorder, who stated his mission, she cordially welcomed him to her pleasant home, where in the presence of her mother and sister, she freely told the story of her sickness and recovery. She said: "A few years ago I suffered a severe attack of inflammation of the lungs, and was attended by one of the best physicians in the city. I pined through but I left a complete wreck, so that I could not do any work, suffering all the time from palpitation of the heart, nervous prostration and a ringing sound in my head. I also had a distressing cough, and for months I never knew what it was to have a good night's rest. For two years my life was a perfect misery to me and under the doctor's orders I took emulsion till I was nauseated with the sight of it but all to no purpose. My life was despaired of, by all my friends who were assured by the doctor that my case was beyond the reach of human skill. I was visited by the clergy of my church and Sisters of Charity, who were very kind and sympathetic and looked upon me as one whose earthly race was about run. I experimented with all sorts of remedies for my cough, but without avail. My druggist at last advised me to try Dr. Williams' Pink Pills. Being fairly discouraged, nevertheless I was persuaded to make the trial, when to the surprise and joy of myself, family and friends, I began to get better, and by the time I had taken seven or eight boxes I was as well as you see me now."

And she laughingly added, "I think you will admit that I don't look much like a sick woman." Her mother, who had been listening to the tale of her daughter's long illness added, "It just seems like a dream to us all that we once despaired of her life when we now see her the pink of health."

Mrs. Foran said that when on a visit to England about a year ago she contracted a heavy cold and was threatened with a return of her cough, but she at once got some of the pills, and by the time she had reached New York she was as well as ever again. She related a number of instances in which she had advised persons suffering from chronic complaints to take Dr. Williams' Pink Pills and always with the best results. She mentioned particularly a niece of hers living in Boston, who was run down and in a wretched condition of health, but was now a healthy young woman who owed her recovery to the use of the pills.

When the reporter was taking his leave Mrs. Foran said, "I am very glad to have the opportunity to testify what Dr. Williams' Pink Pills have done for me and you can say that I shall never cease to commend their goodness, and I bless the good Lord that they were placed in my way at a time when I had not the hope that I could live."

RAILWAY TIES.

It takes something like \$100 a year to keep a railway exchange in working order in Great Britain.

On first class road a passenger engine, it is said, will average about 35,000 miles a year, or, say, 100 miles a day, and it will consume about 70 pounds of coal to the mile. The life of an engine is about 10 years.

Some years ago one of the biggest railway corporations of this country employed a confidential peace-maker, with the idea of preventing suits as far as possible, for personal damages. It has proved a profitable innovation and is being taken up by other railroads.

How It Happened.

"How did Mr. Holdover get the reputation of being such a deep, intelligent person?"

"Well," answered Farmer Cornsloss, "we all listened to his speeches, and we judged by his actions that he understood every word he was saying. We concluded from that that he must be a most extraordinary smart man, so we didn't have no more words about it, but sent him right along to congress."—Washington Star.

The proprietors of Parmed's Pills are constantly receiving letters similar to the following, which explains itself: Mr. John A. Bann, Waterloo, Ont., writes: "I never used any medicine that can equal Parmed's Pills for Dyspepsia or Liver and Kidney Complaints. The relief experienced after using them was wonderful." As a safe family medicine Parmed's Vegetable Pills can be given in all cases requiring a cathartic.

Collar Bone Broken.

Mr. Thos. Medley, living about ten miles south of here, while at work about a threshing machine, was stepped on by a horse, resulting in a broken collar bone.

Those who are in arrears in their subscriptions will please bear in mind that they are requested to settle their accounts by Oct. 31. Advance rates allowed on all subscriptions under 15 years in arrears.

Thanksgiving Service.

Service will be held this evening in the Presbyterian church at 7.30 p.m. Rev. Mr. Hoskin will officiate. The collection will be in aid of the Winnipeg general hospital.

Successful Sportsmen.

Messrs. Spring-Rice, of Pense, and Ford Jones, Regina, returned on Saturday from a week's shooting at the lakes. They brought with them about 350 birds, showing they had not been idle.

A 1 Weather.

At last we have what we have been looking for, fine weather. The farmers are making the most of it and grain is being rapidly threshed out. Unfortunately much of it is a poor sample.

Revival Movement.

On Sunday last Rev. Mr. Hoskin strongly urged a spiritual revival in connection with the Twentieth Century Fund of the Methodist church. This movement is to be carried on throughout Canada and the United States.

Read our advt. of clubbing rate with The Nor-West Farmer, the only agricultural journal published in western Canada. Every farmer should take it and THE PROGRESS. We can arrange to have the subscriptions run concurrently if you already take either one.

Good Prices.

Farmers should bear in mind that No. 1 hard wheat should bring at this point not more than 15 below Fort William prices. The limited quantity of No. 1 hard will keep up prices for that grade as Canadian millers are anxious to obtain all that is going.

Reduction in Price.

Free Press readers in the Territories will greatly appreciate the cut made in prices by the Free Press Company as follows: By mail in advance one year, \$4; 6 months, \$2; 3 months, \$1; 1 month, 35 cents. A special edition containing news up to a few minutes before Winnipeg train time, 4.30 p.m., will be issued. Leave your orders at THE PROGRESS office. Single copies may be secured here at any time.

How Long is Eternity?

It is impossible for the human mind to conceive of an adequate measurement for eternity, or for infinite space. We refer to this when we desire to express anything that cannot be measured. Elihu Burritt says, "To attempt to measure the influence of Sunday-schools would be like applying a two foot rule to infinite space, or the measurement of a moment to eternity." This is the opinion of one great man concerning this great agency for good—the Sunday-school. We presume the comparison is just. There are many thousands and millions in our own country who agree with Mr. Burritt. The International Sunday-school Convention is setting itself to this problem and is laboring night and day to advance the Sunday-school interests of this country, because the Sunday-school is the hope of the nation. Mr. Marion Lawrence, General Secretary of the International Convention, residing at Toledo, O., will send circulars to any desiring them, explaining this great movement.

Four Beautiful Pictures

Ready for Framing.

We have made arrangements whereby we are able to announce the above clubbing rate. The Nor-West Farmer will be sent from date subscription is received until January 1st, 1902, the balance of this year free. The book for farmers, entitled "Things Worth Knowing," was specially prepared to supply in convenient form a fund of information worth dollars to the farmers of Western Canada. It contains in condensed form the substance of many government regulations which bear directly upon the farmer's business; a gazetteer table for every day in the year for horses, cattle, sheep and swine; valuable farm pointers; plans of handy home-made contrivances; veterinary briefs; ideas from leading men; notes for the stock-raiser and grain-grower; in short, it is a good-sized book filled with just such things as every farmer is seeking to know.

Just think! For \$1.75 you get The PROGRESS; The Nor-West Farmer; and The Western Home Monthly; "Things Worth Knowing"—a Book for Farmers; and Four Beautiful Pictures ready for framing. — All for only \$1.75.

NEW GROCERY.

In looking over THE PROGRESS I see that Mr. Edmunds does not approve of the townsite keeping poultry, pigs, etc. I wish to let the readers of THE PROGRESS know that I am of the same opinion as Mr. Edmunds. Last week I sold my pig and six chickens and invested the money in merchandise and I now wish to let the farmers and every person know that I have opened out in the "Grocery Business." Everything fresh and good. Prices right. Now farmers come one, come all and give me a share of your patronage and encourage me in my new enterprise.
